# Why Creative Photography?

## Let the Experience Begin.

I came to Creative Photography because the senior portraits I saw on your website outshined every other studio I saw. Creative had different options and you were able to go outside right at the studio which other places didn't have. My session was easy and Gary made me feel comfortable. What I liked best about my portraits was that all of my photos looked natural! Thanks for everything. *Jessica Borowski - Lakeshore High School*

## What's it like to be photographed by the best?

Gary's many year's of experience in working with High School Seniors means you will have a fun and very relaxed portrait session that moves at an exciting pace without ever feeling rushed. His easy-going manner and attitude will make you feel comfortable without the fake smiles, stiff poses or awkward positions. Gary's professionalism will help turn your jitters into enthusiasm so that he can capture you in the most natural looking way possible.

## Your school photographer or Uncle Frank?

*Creative Photography lighting*

*Are you sure? Don't be taken in by the studio that makes your appointment for you, implying that you won't be in the yearbook unless you are photographed at school.*

You can go to any "studio" that you want and still be in the yearbook. Do you really want a family friend or the "person" who can only take outdoor pictures for you because they don't have a studio? Think your senior portraits have to be awkward with fake smiles and bogus backgrounds? **THINK AGAIN!**

# What Seniors Say...

I came to Creative Photography because I wanted a session I could remember, not just another school picture. The portraits were all different and personal unlike other studios where they looked repetitive. My session was down to earth and I got to listen to Maroon5 which made me feel comfortable. Mitch the assistant, even belted out a few notes and just made time fly

in the session. There were so many poses to choose from! Gary took so many pictures and they turned out better than I even expected. The only thing I would change is to not be as nervous going into the session because in the end it was just fun! *Megan Anderson - Frontier*

I came to Creative Photography because I received information in the mail which had photos of other seniors on them. I loved the outdoor studio & indoor scenes used, and thought the photography was truly creative. I also like the music they played during my session. My session was wonderful and loads of fun. I was excited to take my senior photos, but I didn't anticipate having as much fun as I did! I liked the smiling and bubbly smiles on my face because they were genuine, and I loved how I was able to use my Ski's in the pictures. I loved my session at Creative Photography! I am extremely happy with the results of my photos and I really appreciate all the time Gary spent with me! *Brandi Burgard - Springville*

I was referred to Creative though school and loved the variety of props and poses that they offered. The other studio's I looked at, didn't have the variety. Everyone at Creative was awesome. I love that Gary and the guys really get to know you and talk to you throughout the whole session! I will recommend you to everyone! You were all awesome!! *Randy Goettel - Eden*

I came to Creative Photography because all my friends went there and they all had great experiences. Everyone loves getting their senior portraits taken there. Creative has so many success stories and beautiful portraits that there are no doubts you will leave happy and satisfied with Gary's work. I would describe my session quick and relaxed. My mouth never hurt from smiling too much and the poses were easy. There was no pressure to take a perfect picture; you just had to be yourself. The best thing about my portraits is that there is such a wide variety. All of the different color effects mixed with natural and smiling faces guaranteed a great session. *Lindsay Kirst - Hamburg*

My sister came to Creative for her senior pictures and I loved how hers came out. Although I was nervous, I liked how welcoming it felt to walk in and how everything was so laid back. My session was fun and stress free. I loved all the different backgrounds that were used and the cool effects that they offered was very original. *Tyler Gryns - West Seneca East*

I heard about Creative Photography from my friends in my class. I like that Creative Photography had such a variety of different sets and backdrops. My session was so much fun! Gary made me feel very comfortable, and his jokes and funny attitude really relaxed me. I liked that my portraits were more about ME, as opposed to dressed up in clothes I'd never wear, sitting in unnatural poses. If I could do my session over I would try and not think so much, and enjoy the entire experience. Thank you so much, I absolutely loved my portraits and laughing and being silly in my session. *Samantha Kubik - West Seneca West*

I came to Creative Photography because a lot of my older friends had gotten their senior portraits done there and loved them. I loved the outdoor poses! Those made the session different from a lot of others. My session was a lot of fun. I got to do the standard senior

portraits but also got pictures that show my interests and who I am. I loved being able to bring in different outfits like my dance dress and marching band uniform. It allowed me to capture the things I've been involved with throughout high school. *Cara Maloney - Orchard Park*

I came to Creative Photography because past students from my school had their portraits done at Creative and loved them. After my experience, I understand why so many pick Creative. I loved that I could do whatever I wanted and was able to incorporate my own artwork into my portraits. My session was fun and comfortable. What I loved the most was the fact that I felt my portraits showed who I really am which was my main goal. Thanks Gary! *Kayla Zelasko - Iroquois Central*

A lot of my friends recommended going to Creative Photography because they provided both indoor and outdoor pictures in one session, unlike other studios. My session was very fun, easy, and fast. Gary made me laugh so I didn't have a fake smile. I wish I had more time and do it again, because I loved getting my pictures taken there. *Melynda Wielkie - Gowanda*

# How Much Do Senior Portraits Cost?

## Exceptional Value.

What is it that makes Creative senior portraits such a good deal? First, you get to decide not only on the styles and quantity of poses you want in your session (page 8 & 9), but you also determine the exact number of photographs you will need; there are no minimum orders, no required packages of any kind. If you need one portrait, you can get just one. If you need eight or eighty-eight, then that's what you can order. It's easy!

## Choices for Every Budget.

Gift portraits are available individually from \$32 (depending upon quantity), and packages starting from \$119 up to our Multiple Pose Panel Package for \$995. You'll find unadvertised specials throughout the year, so you are sure to find one to fit your needs. Most senior packages fall between the \$300-\$500 range. In addition, we have specialty products such as "Highlight albums" and "DVD slideshows" to enjoy many of your images (see page 6). **You can even take home your images on your own Thumb drive for you to use any way you choose!** At *Creative Photography* you can get exactly what you want, the flexibility is great, your choices are many, and the options are affordable.

## No Hidden Costs, and your *Yearbook Portrait is FREE!*

This is what really sets Creative's work apart from the rest. Included with every portrait are the important things you often pay extra for at other studios. Each of your poses are retouched when necessary to remove blemishes. Your portraits are delivered in folders or bonded to art board for gift giving and wallets are delivered in a lucite box. Also included is one yearbook glossy or file made to your school's specifications. Plus, you get friendly, courteous treatment by a highly trained staff of professionals. Their main goal is to make sure that you look good, have fun and get what you want. **This is why *Creative Photography* is "The studio of choice for Senior Portraits".**

## What about my Proofs?

Your originals (proofs) will be ready for pick-up 2-3 business days after your session! They will be packaged in a specialized senior folio and contain examples of enhancements as well. You will pay a deposit, and be able to take the proofs home with you to show family & friends and decide on your portrait order in the comfort of your own home. No high pressure sales people, and your deposit is applied directly to your portrait order.

First, we have a simple philosophy

**We make it FUN, EASY AND AFFORDABLE.**

For over 20 years, our goal has been to make you look as good as you feel. You will never encounter rude or pushy sales people, long waits, or part-time photographers that photograph as a side job. Our innovative style and good-natured approach has helped earn our studio the position of Western New York's premier senior photography studio.

**SENIOR  
PHOTOGRAPHERS**  
INTERNATIONAL

Creative Photography acclaimed as one of the top 400 photographers in the United States in 2011.

## Don't Get Stuck With A Yugo!

Back in the 80's an automobile, called the Yugo, came out, and was advertised to be the lowest priced car in America. Problem was, they were cheaply built, they rusted quickly, and their repair record was horrible. In other words, even priced as low as they were, they weren't a good deal. Result: They went bankrupt!

Senior portraits are often advertised on price alone because prices are easy to compare. What isn't easy to compare is what you get for your money. You commit to hiring a photographer before you're even able to see the results (you can't "test drive" senior pictures like you can a car), your decision of where you go is even more important.

At *Creative Photography*, we feel that value is just as important as price. Price just tells you how much you paid. Value says you got a good deal for what you paid, and that's what we've stood for since 1976!

***So don't get stuck with a "Yugo" senior portrait. Call *Creative Photography* for your appointment today!***
